

# Prevention *matters*

*Health & Safety for Every Body • Integrated Health & Safety Solutions*

## Make a Commitment to Prevention in 2019

In the New Year, recommit to your company goals of risk reduction, improved health & human efficiency and increased productivity.

Team Accurate Ergonomics (AE) has been busy during 2018, creating effective new content, value-added services and custom education & training solutions. Every element is designed to energize your Health and Safety program and promote continuous improvement.

In 2019 we will be sending out informational updates and helpful tips on a variety of health, ergonomics, prevention and safety topics. Below is a partial list of our New Services and Deliverables.

- **New!** Ergonomics, Health & Safety Academy: Engaging E-Learning Training Programs for Active & At-Desk Employees.
- **New!** Warm-Up & SAFE Stretch Packages.
- **New!** At-Desk Professional Packages: Ergonomics Best Practices, Self-Assessments, E-Deliverables and More.
- **New!** Doc-in-a-Box™ - DIY Training Programs: Everything Internal Leaders Need to Deliver Meaningful and Effective Employee Education and Skills Training.
- **New!** Remote Ergonomics Assessments - Our Specialists are Licensed Healthcare Practitioners!

**Prevention Matters!** How much do Back, Shoulder and Knee Injuries cost? Carpal Tunnel Surgeries? Slips, Trips and Falls? Did you know that 50% of an average workforce is nonproductive over 300 hours a year? The average loss per 100 employees is 1 Million Dollars - *Every Year!*

- Ensure that your company and workforce is engaged and has the tools necessary to be more efficient.
- Enjoy solutions proven to create measurable and sustainable outcomes.
